Art Unit: 2154

1. Claims 1-79 are presented for examination.

Election/Restrictions

2. Restriction to one of the following inventions under 35 U.S.C. 121:

- I. Claims 1-20, 30-41 and 48-79 are drawn to identifying peer nodes within a network, classified in class 709, subclass 201.

- II. Claims 21-29 are drawn to discovering resources in a peer-to-peer environment, classified in class 709, subclass 245.

- III. Claims 42-47 are drawn to discovering one or more services in a peer-to-peer environment, classified in class 709, subclass 250.

3. The inventions are distinct, each from the other because of the following reasons: Inventions I, II and III are related as subcombinations disclosed as usable together in a combination of inventions I and II and inventions I and III. The subcombinations are distinct from each other if they are shown to be separately usable. In the instant case, invention I has separate utility such as in a system-lacking the implementation of discovering resources and one or more services in a peer-to-peer environment. Invention II has separate utility such as in a system-lacking the implementation of discovering one or more services in a peer-to-peer environment, See MPEP § 806.05(d). Also the restriction requirement is based on the interpretation that every dependent claim is dependent on the preceding independent claim (note Applicant's claim numbering).

4. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

5. Because these inventions are distinct for the reasons given above and the search required for Group I, Group II or Group III, is not required for the remaining Group, restriction for examination purposes as indicated is proper.

6. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Conclusion

7. A shortened statutory period for reply to this Office action is set to expire in ONE MONTH from the mailing date of this action.
